The Future Glades Farmer

There are many men in the Glades who have been "farming" for more than a score of years and who now recognize that their days of such activity are not many years away. By their labor they have purchased and developed rich farming lands from which they have made their daily and life competency, and are now able to retire, if desired, on a basis that is not a starvation one. Each year sees new faces of operators who have been attracted to the rich winter agriculture getting into action locally; this has increased the number of farmers in the crop raising business.

But it is not to these newcomers that the Glades is looking for its farmers, but to the young men who have homes here, who like and desire to follow in the footsteps of their parents. These lads are observant, catch on to means and methods of production quickly and are laying a strong foundation for future activity.

The fact that there are several Future Farmer of America chapters in the Glades is a source of farm education along growing and administrative methods, and in their projects, group and individual, these lads already show the value of such instruction. Many of the chapter members, to better prepare themselves for farm work, have gone to agricultural schools, to learn the rudiments of successful farming, cattle, citrus and other vocational work. With that knowledge they come home to apply their knowledge to brainy farming of the future.

The F. F. A. chapters have always had the support of the state and county school authorities and the citizens at home and willingly give such financial and moral support as may be needed.

The Glades is sure to be plentifully supplied with intelligent farmers in the future from the ranks of these young men of today.

A Great Decision

Many of the great decisions of this day are being made without the benefit of historic political conferences. They are being made in the minds of the people. Particularly is this true in the United States. And here the press is the instrument through which the people finally reach their conclusions.

The most important question of America will soon be deciding will be whether to let government grow beyond their power to curb it, in return for alleged benefits. The discussion surrounding proposed Federal control of medicine is a phase of the larger question.

The worst danger is that the people will let government grow beyond their control before they fully recognize what is happening. They should understand that government domination of medicine is a big step in that direction.

CINEMATIC CHATTER

By Malcolm Miller
Holy Lamar is coming to town this week end and will play the Everglades Theatre Sunday and Monday on the screen in "The Conspirators" with Paul Henreid as her leading man.

This is another story of the underground in occupied countries of Nazi Germany and will prove real drama with an interesting angle in the relief of the incidents in the plot that will thoroughly shock and entertain you. Yes it is a "must".

Tuesday-Wednesday we will see Dennis Morgan and Payne Bessinger who will bring a tender, humorous and exciting tale to the screen when they present "The Very Thought of You" which is rated as a very charming man.

ALKA-SELTZER
BRIGHTENS
MY DAY

OCCASIONALLY, I wake up in the morning with a headache. It sometimes occurs about the middle of the forenoon, but I don't want to wait that long to get a glass of sparkling ALKA-SELTZER. In just a little while I am feeling a lot better.

Sometimes the week's leading item is a headache. Then, it's ALKA-SELTZER to the rescue. In a little while I am feeling a lot better.

ALKA-SELTZER relieves my day. It brings relief from so many of my discomforts that I always keep it handy.

Don't wait until you get a packet of ALKA-SELTZER at your drug store today.

Large Package 66¢, Small 26¢.

THE OLD JUDGE SAYS...

GEORGE: "Yes, I certainly would like to hear what you call that an old fashioned idea, Judge."

OLD JUDGE: "Glad to tell you, George. I tell you, a person who is an old judge is generally treated as a social outcast. Little if anything was done to understand him or help him. But, during the past few years, medical research and study has developed that alcoholics are really sick people... that there is usually a deep-seated physical, social or emotional reason behind their behavior. That's why today so much is being done to help them by finding out and correcting the condition that leads them to excess."

GEORGE: "How many folks are there like that, Judge?"

OLD JUDGE: "Well, according to scientific research, 80% of the people who drink, drink sensibly, 5% to 10% are, at times. Included in that 5% is the most percentage of the sick people I'm talking about."

GEORGE: "That certainly gives me a clearer picture. It's the most sensible approach I've ever heard on the subject."

MAKE YOUR CAR SHIPSHAPE FOR SUMMER - SINCLAIR-ize
Making your car Shipshape for Summer will save wear. Sinclair-ize service will make your car Shipshape as its manufacturer recommends. You need this service now, as never before. No new cars are being made. So better not take any chances. Have your car Sinclair-ized right away.
SINCLAIR-ize SERVICE INCLUDES THIS:
To save wear on gears, transmission and differential are filled with summer Sinclair lubricants. Special Hypoid lubricant is used for Hypoid gears.
To save engine wear, crankcase is filled with Opaline Motor Oil. It stands up, lasts so long it saves you money. Sinclair Pennsylvania Motor Oil if you prefer at 5¢ more per quart.
To save tires, tires are inspected for cuts and bruises, inflated to proper pressure.
To help prevent accidents, front wheels are removed and lubricated if your car manufacturer recommends.
To help prevent overheating, radiator is cleaned of anti-freeze, rust and sludge.
To save wear and help prevent squeaks, chassis is lubricated with special Sinclair lubricant.
To give better performance, save gasoline, spark plugs are cleaned and adjusted. Battery and oil and air filters are checked.
"SAVE WEAR WITH SINCLAIR" HAVE YOUR CAR SINCLAIR-IZED NOW

Now report is that we have a sugar shortage in the nation and that quotas for home consumption must be spread over a longer period of time. We who live in the cane country know that Florida, were it not for government growing regulations, could grow sufficient cane to produce enough sugar for the nation. Joe Ferris, assistant secretary of the U. S. Sugar Company and the Cooperative Sugar Association, has informed the Food Commission that Florida growers could ease the situation if the Commission would but help itself by allowing more liberal planting and production program from which now exists. Ferris set forth that Everglades farmers could

Nation's School Children Ready To Assume Part in Seventh Drive

WASHINGTON, D. C.—The nation's 30,000,000 school children are again all set to assume as much responsibility as is given them in helping to meet the \$7,000,000,000 quota set for sales of War Bonds to individuals in the Seventh War Loan.

The demonstrated interest of school children was an important factor in the determination of the date set for this new drive. May 14th through June 30th, inclusive, on the part of the nation's school children, over eleven million were directly asked to buy bonds by these boys and girls, a little less than a third of whom were solicited in no other way.

The participation of school children ranges from rallies at their schools to the taking over of actual house-to-house canvassing. In Pennsylvania, a small New Jersey town, during the last drive, E Bonds sales were lagging behind. In desperation, the War Finance Committee turned to the students of the town's two high schools and one grammar school. "If the adults won't do it, it's up to you," the County Chairman said to them. Accepting the challenge, within a week boys and girls had sold \$25,000 worth of bonds, and before the close of the drive, Pennsylvania's 6,483 citizens had topped their E Bond quota by \$17,000. "Let's chuck that warrent on usual inactivity," said the local weekly newspaper.

In Michigan, public schools sold \$23,730,500 worth of bonds in the Sixth War Loan, with Detroit schools contributing almost a third of this.

WARNING

If your Everglades Drainage District taxes for 1942 are still delinquent by May 31, 1945, file simple title to such land will revert to the Board of Commissioners of Everglades Drainage District.

DeMolay Chapter Confers Its Degrees

Lake Okechobee Chapter of DeMolay held a largely attended and interesting meeting at the Masonic hall Monday night.

The new degree teams conferring the Initiatory and DeMolay degrees for the first time and those who witnessed the work showed great praise on the teams for their exemplification work.

The trio of boys granted admission to membership were Don Masonic, Harold Weeks and Harland Sears. Other petitions were presented for action.

The degree teams will have a special meeting on next Monday night for degree rehearsal work in preparation for more work at the next regular meeting. Mothers of the boys served ice cream, cake and fruit juice refreshments to the company of 60 persons in attendance.

Final Waste Paper Drive Comes On May 26th

Old paper is needed by the Government and Scout Master Frank Weller announces that the Boy Scouts of Belle Glade have volunteered to be the collectors if our citizens will be donors and follow E requirements of the drive.

Stress is made that all newspapers must be separated from magazines and firmly bound or tied so as to prevent scattering and easier handling. Treat your magazines and strong card papers in a like manner and kindly put your collection out in front of the house or business place to provide an easy pickup.

Some four truck loads of paper was secured on the recent drive but this time, which will be the final collection, enough is desired to make 20,000 pounds, which is a car load.

This drive will be made on Saturday, May 26th so have your paper collection donation ready for the pickup. Proceeds from the sale of E paper goes into the Scout treasury for their activity program.

Baptists Revival Well Attended

Attendance at the special revival services being conducted at the First Baptist church by the pastor, Rev. I. E. Enlow, and Eugene Enlow and Billy Jones, evangelistic musicians, has been large and at three services on Sunday capacity audiences were recorded. The revival will continue the balance of this week.

On Tuesday night there was a big rally held at the city park where everyone enjoyed a community sing.

Kruse Brothers Will Harvest Peppermint

Kruse Brothers, well known produce growers, who for several years have been experimenting with the growing of peppermint on their brown farm road properties and soon will begin the harvest of their crop.

To secure the peppermint oil of essence, the herb is distilled similar to the turpentine system. The oil is used largely for medicinal purposes and brings a high price on the war market.

In the area around South Bend, Ind., and in Guernsey county, Ohio, peppermint, spearmint, penny royal farms and stills are abundant. The distill trap is used for seasoning purposes, mostly in flavoring dill pickles and cooking receipts.

Station May Get Increased Monies

Efforts and recommendations of the Palm Beach County Resources and Development Board, backed up by hundreds of Glades citizens, are making additional funds for the Everglades Experiment Station at Belle Glade seem to be bearing some fruit, but not in the amount that had been requested. The House Appropriation committee has recommended that an additional sum of \$75,167.00 in addition to the amounts previously budgeted for station operations, or \$74,900 be appropriated.

This sum will not be sufficient to provide new buildings that Dr. R. V. Allison, station head, had requested, but will be used for expansions in works carried on by the Board.

Getting Field In Shape

Tractors are now busy plowing up the turf of the new Athletic Field on Lake Road and following that work all the field will be suitably rolled in preparation for later seeding for the football grid.

Fencing material has been purchased and the setting of the fence poles, stringing wire and setting of trees and shrubbery will soon follow.

To the \$8,500 has been raised on E project. The Council officials are urging that all those who have solicitation cards in their possession, to get busy and conclude this end of the project, so that total collections may be brought nearer the desired \$10,000 sought.

South Bay Farmer's Death Is Reported

Pete Knutson, who became a

Lines of Communication

GROW LONGER AND LONGER

Each new mile ahead toward total victory on all fronts lengthens the telephone lines of communication... the lifelines of our Army and Navy. And manufacturers of telephone equipment are still working at full capacity to fill urgent war needs.

That is why there is still a waiting list for telephone service on the home front.

Not until these war demands stop, will manufacturers of telephone equipment be able to convert their plants to the production of new equipment needed to fill civilian demands for service.

Even when new equipment is available it will require considerable additional time to install it where we will be able to serve all who are waiting. In the meantime, by serving war needs first, we are helping to hasten the day when all who want service can get it.

SOUTHERN BELL TELEPHONE AND TELEGRAPH COMPANY

citizen of the South Bay section in 1915 and who had a wide Glades acquaintance, and who lived there until 1943, is dead. His body was found along the road by South Bay and Okelanta relatives. Knutson at one time was connected with the Okelanta stock farm at South Bay. He has sons residing at South Bay, Postville, Idaho and Whitefish, Montana.

SEASON'S ACTIVITIES

(Continued from page one) American Fruit Growers as to the possibility of all plantings, indicated that the acreage in the diversified crops would not be less than the present season average, especially in celery, potato, and other new growers are expected to enter the celery game next fall and that instead of 4,000 acres there might be in excess of 5,000 acres of celery.

New Celery Growers Some time ago, A. Duda and Sons of Slavonia, large operators in celery at Slavonia, Oviedo and St. Cloud, purchased two sections formerly known as the Heller Bros. farm located south of the Experiment Station. It is understood that this farm, which is well known as successful operators among produce dealers, will raise considerable celery, along with other diversified crops.

Undergriff and Williams of Palmetto, which has its packing house at Cardwell, is also expected to produce celery this year and has already expanded plans to accommodate that future business.

Lou Currier, of Belle Glade, also expects to plant from 40 to 50 acres in celery. Report is that two other Sanford firms are flirting with the idea of getting into the celery game here in the Glades.

Celery potato acreage will depend upon the climatic conditions prevailing at the opening of the crop season but possibly will be as large as the present spring crop.

Clearance of Workers Officials at the Farm Clearance office have been busy the past week in clearing down the laborers to new jobs up the line. However, just because a laborer wants to make a shift, he does not get a clearance, and he is to be cleared he must show that he has an employer awaiting his services, signed by that employer.

Bean Grower Raised Pop Corn Crop

A. J. Felt, well known bean grower, at planting time found himself without field corn seed, so he picked up some pop corn from his wind breaks. Now he says he had 20 acres of such corn from which he anticipates gathering a satisfactory crop. He expects to have plenty of pop corn for the winter evenings.

New V. F. W. Post

Promotional work is under foot at Palmetto to organize a Post of Veterans of Foreign Wars, and a charter is expected to be delivered to the promoters soon. A charter list of 30 prospective members has been secured. Interested veterans are requested to contact Roy Segree.

Barbecue For Coast Guard

Auxiliary Flotilla 3, Division 2, Inc., in celebration of the taking over of the former Coast Guard Base in West Palm Beach will hold a barbecue and dance Saturday, June 2 at its new home.

The Flotilla Inc., recently purchased the property and the barbecue will be more in the event of allowing the members and guests an opportunity of inspecting the property which is on the shores of Lake Worth.

The barbecue will be served from 5 to 8 p. m., with dancing from 9 to midnight.

There are a number of Belle Glade residents who are members of the Flotilla which is composed of members of the Coast Guard Reserve. These men served at least once a week on important Coast Guard assignments during the war and were only released from weekly duty about two months ago.

Lou Bettner is on the publicity committee for the barbecue and may be contacted for information regarding the celebration.

TOO LATE TO CLASSIFY

FOR the next two weeks I will be selling shrubbery trees, also Cocos Plumosa palms and gingers plants. Now is the time to get prepared for fall and winter blossoms. Mrs. C. E. Reidel, Phone 84-M, 5-13-11

LOST—Small black female Fox Terrier last Saturday in South Bay. Her name is Trixie. Reward offered: J. W. Strickland, South Bay. 5-13-45

FIGHT AND WRITE

Continued from page 1 day that we killed six chickens and roasted them over a fire. Did not even have any salt, but believe it was the best chicken I ever tasted. Last week we killed pig and skinned him and had it roasted over an open fire, beans the other night in my helmet, but they were not very tasty without salt, but we ate them.

"Was in air raid night before last, the first in four or five days. It didn't amount to much but they really scare you. I've been in mountains, jungles, rain and anything else a marine has to go through, but we have a lot of Japs to our credit. I am sending home a souvenir of an animal that calls himself a Jap which I took personal pride in securing. He tried throwing a grenade in my foxhole but wasn't quite fast enough. Maybe I sound like I'm presenting the bad

side of the story, but frankly, I haven't seen the good side yet. During the recent operation in a squad of 14 men, I was one of the five who returned. I am just lucky I'm telling you these boys play rough over here."
